Assessment and rating preparation visit

½ day or full day, delivered in your service

Assessment and rating can be make or break, so it's crucial to be well prepared. This popular package will take the stress out of A&R and help you and your team get ready. One of our expert consultants will spend a full day at your service, observing practice and providing feedback in each of the Quality Areas. Your educator team will receive coaching across the day and have the opportunity to ask questions about any area of service operation, free from judgement.

You will:

- ✔ Talk through your previous assessment and rating report and current Quality Improvement Plan and identify strengths and areas for improvement
- ✔ Get simple tips and tricks for highlighting your service's strengths
- ✔ Get guidance and support on situations as they arise throughout the day
- ✔ Receive a detailed written report outlining observed strengths and suggested improvements in each Quality Area

This PD aligns with QA1-7.

From **\$1399 + GST**
for your team or service
